DECLARATION OF RESTRICTIONS

KNOW ALL MEN BY THESE PRESENTS:

That PHOENIX TITLE AND TRUST COMPANY, an Arizona corporation, as Trustee, being the owner of all of the following described premises, situate within the County of Gila, State of Arizona, to-wit:

Lots One (1) through Forty-two (42), inclusive, except Lots Eighteen (18), Nineteen (19), Twenty (20) and Twenty-one (21), BONITA CREEK RANCH NO. 2, according to the plat of record in the office of the County Recorder of Gila County, Arizona, recorded May 28, 1956 as Map No. 160;

and desiring to establish the nature of the use and enjoyment thereof, does hereby declare said premises subject to the following express covenants, stipulations and restrictive covenants running with the title to said premises and with each and every part and parcel thereof, to-wit:

1. All of the said lots in said BONITA CREEK RANCH NO. 2 shall be known and described as single-family residential lots, except lots 18, 19, 20 and 21, and Tracts "A", "B", and "C".
2. None of said lots shall be resubdivided into smaller lots or conveyed or encumbered in less than the full original dimension of such lot as shown by the plat of BONITA CREEK RANCH NO. 2, except for public utilities, provided that this restriction shall not prevent the conveyance or encumbrance of, or resubdividing of lots or parts of lots by the subdivider, without reservation, when the conveyance, encumbrance or subdividing of lots or parts of lots will permit a better utilization of the land, stream frontage or terrain. Nothing herein contained shall prevent the dedication or conveyance of portions of lots for public utilities, in which event the remaining portion of any such lot shall, for the purpose of this provision, be treated as a whole lot. Nothing contained herein shall prevent the subdivider from resubdividing into smaller parcels any lot or parts thereof, when considered necessary to better utilize the land, terrain or stream frontage, to the extent of increasing the number of lots if necessary.
3. No structure shall be built on, over or across the easements as shown on the plat of BONITA CREEK RANCH NO. 2.
4. On none of said residential lots shall a hospital, sanitarium, hotel, lodging house, apartment house or other building of any kind or nature whatsoever used or occupied for the care, lodging or entertainment of persons suffering from disease, or for any purpose that will depreciate the value of the property for dwelling purposes, be maintained, kept or permitted on such premises, or any part thereof.
5. No billboards or advertising signs of any character shall be erected, placed, permitted or maintained on any lot or on any building erected thereon, other than one sign not larger than 12" by 18" indicating that the property is for sale or for rent, with wording limited to "For Sale" or "For Rent", and the name and address and telephone number of the owner or agent, and the words "Inquire Within"; provided, however, that the subdividers and their agents may erect and maintain signs advertising for the sale of lots in said subdivision.

6. Plans, including architectural designs, dimensions and class of materials to be used for the proposed structures must be submitted to, and have the approval of the subdividers before any construction is undertaken. On building sites which slope in one or more directions, a ground plan showing the foundation elevation in relation to the finished ground line may be necessary also. Following are minimum requirements.

- a. Architectural plans will include design and class of materials to be used. This will involve floor plans, a perspective sketch, or simple front and side elevations, and construction details for foundation, sills, size and spacing of floor joists, framing, roof pitch, size and spacing of rafters, electrical wiring, flue construction, etc.
- b. Simplicity of architectural design, good proportions, and an appearance of naturalness to the forest setting are desired in the completed structure. Ornate, elaborate, pretentious or showy structures, or parts thereof, will be unacceptable. Minimum square footage is to be 800, exclusive of carports, storage or other out buildings.
- c. Continuous foundations are required which may be of solid, native rock, masonry, solid concrete, or concrete with native rock veneer. Foundations will rest on good footings and extend not less than 12 inches below the ground, unless set on solid rock. Preferred height above ground is 12 inches, and the maximum allowable height is 20 inches. Care is necessary in the selection of building sites to keep grading to a minimum. Screened vents shall be provided in the foundation. 16 to 19 gauge galvanized wire cloth with 1/4" to 1/3" mesh in metal frames of 24 or 26 gauge galvanized sheet steel are ideal.
- d. No building will be built closer than 50 feet to bank of stream.
- e. Exterior walls and porches may be of peeled logs, either round, sawed or hewed; hand split shakes or burnt adobe; log siding; edged, peeled slabs; rough lumber; or native stone. The use of bright-colored mortar or stucco, corrugated iron or tar paper will not be approved. Stains are preferable to paints for outside wood surfaces. The natural wood color may be retained or stains may be colored to produce a neutral brown or weathered gray. Where paint is required, soft browns and grays are preferred. Window and door casings and other outside trim must harmonize with the background and should not present strong contrasts.
- f. Chimneys must extend to a solid ground foundation with adequate footing and must be of fireproof construction lined with flue tile or fire brick. All exposed surfaces must be in keeping with the exposed building foundations.
- g. Roofs of the car-roof or shed-type are prohibited. The following roof coverings are acceptable; shakes, shingles and prepared roofing shingles, preferable of fire-resistant material. Tin, corrugated iron, sheet metal, flat-roll roofing or tar paper will not be permitted. Bright color schemes are unacceptable; roof colors must harmonize with the walls.
- h. All plumbing to be modern inside-type, connected to inside connections below ground surface and to cesspool and septic tank. All ground water sources, such as wells and springs, should be adequately protected from sources of contamination. Septic Tanks, sewers, and sub-surface pits must be located at least 100 feet downgrade from water supplies and not less than 50 feet from live streams.

- i. Fly-tight metal containers will be required for the storage of garbage and refuse pending removal and disposal. Garbage and refuse will be disposed of in accordance with State Sanitary Regulations.
- j. Spark arrestors shall be installed on chimneys. The roofs of all buildings shall be kept clear of leaves and other inflammable material. All heating systems shall be so installed as to eliminate the danger of fire therefrom.
- k. Camp fires are prohibited except in prepared fireplaces which have been approved by the Forest Supervisor or his representatives.
- l. In landscaping, the desire is to preserve the natural forest conditions to the fullest extent possible. Tree pruning and clearnace will be held to the minimum. Walks should be gravel or native stone; and the use of painted or whitewashed rocks or trees and other types of "decorations" foreign to the natural environment avoided.
- m. No rental units permitted, each forest lot is limited to one single-family residence, guest house, barns, etc.
- n. No business will be permitted.
- o. No house trailers permitted. Horse trailers and utility trailers permitted.
- p. Stream frontage will be considered as an easement for the use and enjoyment of all property owners residing within Bonita Creek Ranch. Fencing off or obstructing the use of Bonita Creek, to deny the use of the waters or stream banks for lawful fishing or hunting is prohibited.

It is expressly understood and agreed that the said BONITA CREEK RANCH NO. 2 has been platted and laid out as a choice and attractive residential district, and that these covenants and restrictions are made for the benefit of the lots herein described, and are to run with the land and shall inure to the benefit of and be binding on all of said lots until January 1, 1976, at which time such covenants shall be automatically extended for successive periods of five years each, unless by a majority vote of the then individual property owners it is agreed to change the said covenants in whole or in part.

If any person shall violate or attempt to violate any of the covenants or restrictions herein before January 1, 1976, or such time later as may be set up by the provisions of the paragraph preceding this one, it shall be lawful for any person or persons owning any other lots in said development or subdivision to prosecute any proceedings at law or in equity against the person or persons violating or attempting to violate any such covenants or restrictions and either to prevent him or them from so doing or to recover damages or other dues for such violation.

Should any of the covenants or stipulations herein be held invalid or void, such invalidity or voidness of any of the covenants shall not affect the rest of the instrument or any valid covenants herein contained.

The foregoing is a copy of the restrictions, rights, reservations, limitations, agreements, conditions and covenants contained in instrument recorded in Docket 55, page 27, records of Gila County, Arizona.
